Why did “This Little Piggy” go to market?
Answer: He was the only pig in the family that understood math.

The ability of school children to do well in math is linked with their exposure as babies, toddlers and preschoolers to early math. (The Early Years Study 1999)

- Play counting games with baby’s fingers and toes.
- Count body parts, stair steps, or socks in the clothes basket.
- Look for shapes in windows, doors and traffic signs.
- Pretend to be big or small animals by crouching or stretching tall.

My Eyes
Here are my eyes,
One and two.
(Point to eyes)
I give a wink,
So can you. (Wink eye)
